

STATE TRAVEL REPORT

Due 5/27/08

You have chosen a state and now you need to plan a trip to that state. This long-term project will include these things:

- A Travel Brochure covering all of the important places you will visit in your state. (Self-Created)
- A Map that shows all of the important locations and the roads you would take to get to those locations. (Must have proper labels, be big enough for the whole class to see, have all of the major cities, be colorful, self-created, and have a legend.)
- A written report that explains the locations that you would travel to in your state. Explain why they are important to the state. (Be sure to give at least three historical locations and two fun locations.)
- A separate “Quick Facts” page that gives:
 - A list of the major cities
 - The Capital
 - Area of the State
 - Population of the State
 - State Motto
 - Admission into the Union
 - Major Industries (sources of income)
 - Location of the State
- A Picture of the State Flag (Self Created)
- A Picture of the State Bird or Flower (Self-Created)
- A Resource Page stating where you found your information

You will present your report to the class using the self-created map to explain your state, the trip you would take, and why you chose the locations to travel to.
